Chip,

I have reviewed the Portofino Vineyards ADD using the courtesy e-mail that Stacy sent over. The applicant is providing enhanced littoral plantings by doubling the code required amount to meet the deviation requirements per LDC 10-329 for alternative lake bank slopes. The applicant is still meeting the deep lake tree requirements which did not change when the lake bank slope requirements changed so they are still in compliance.

I'm sending you this because I will be out of office until January 2, 2018. So if you need to complete the ADD, this e-mail serves as the approval.
